

# ExpressDial Conferencing

## Nationwide Local Dial-in, Toll-free and International Access

### Express Dial is New and Improved!

#### Nationwide Local Dial-In

Reduce cost by dialing a local number. US toll-free and international toll-free are available for travelers.

#### Volume Controls

Improve your call quality by increasing or decreasing the volume on a line or in the entire call.

#### Call Security

Increase call security by asking for a security code, hearing who is on line, locking the call or disconnecting everyone when the call is finished.

#### Manage Billing Codes

Add billing codes to the invoice or portal reports. Moderators can enter a billing code after the conference ID or add or change billing codes in the customer portal.

### Flexible Dial-In Options

With *ExpressDial* on-demand audio conferencing, you can have up to 300 participants on a call without a reservation. Participants can easily dial into an *ExpressDial* conference call worldwide. You and your US / Canadian participants can choose between a toll-free dial-in number or one of *ExpressConnect*'s nationwide network of local access dial-in numbers to join the conference call at a reduced rate .

International participants access calls with toll-free numbers from most countries or they can dial-in on your International toll number.
